No Holden Dealer or other person is authorised or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance, characteristics, descriptions or fitness for any purpose of any Holden product or in connection with the supply of any Holden product, which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by Holden in its published sales literature, and Holden does not accept any responsibility for such unauthorised action.

# SERVICING

## Distance/time based service intervals

The Complimentary inspection is due at 1 month of owning your new Holden.

The first scheduled maintenance service is due at 12 months or 15,000 km (whichever occurs first) from taking delivery of your vehicle and thereafter, every 12 months or 15,000 km (whichever occurs first).

Additional services are required under certain driving conditions, such as when towing. Refer to *Maintenance Schedule* further on in this booklet.

## Complimentary inspection

The 1 month Complimentary inspection is performed free of charge by the Selling Dealer.

A different Holden Dealer may perform this inspection if provided with authorisation from the selling Dealer.

## Determining the proper service interval

The operating conditions of your vehicle will determine the service interval. Use the **time** interval or the odometer reading, whichever occurs first, to determine when the service is due. It is important to remember that oils and fluids in your vehicle will deteriorate over time, therefore if your vehicle has not travelled the specified service interval distance, the vehicle **must** be serviced by time interval.

Under certain operating conditions, your Holden may require additional servicing to ensure maximum safety, performance and longevity.

The additional service requirements typically include more frequent replacement of lubricating oils for example, engine and transmission fluids and the more frequent inspection of steering, suspension and brake system components. For more information please refer to *Maintenance Schedule* further on in this booklet.

Your Holden Dealer will be able to determine the appropriate service requirements for your vehicle according to your operating conditions.

## Service reminder message

A distance based service reminder message is built into the trip computer.

The service reminder message first appears 1,000 km before the service is due, allowing you time to arrange for the service to be carried out. The service reminder message displays in the Driver Information Centre (DIC) after the ignition is switched on, until MENU on the indicator stalk is pressed (Astra/Cascade) or ✓ on the right side of the steering wheel is pressed (Insignia).

It should be noted that the service reminder message applies only for regular distance based service intervals.

## SERVICING

This message is triggered by a distance calculation and does not calculate time or time from the last service.

It is important to remember that whenever the vehicle has not travelled the specified service interval distance, the vehicle must be serviced by time interval.

The service reminder will be reset by your Holden Dealer when the vehicle is serviced. The service reminder will display in the DIC 14,000 km from the distance when last reset (for example if the service reminder is reset by the dealer at 15,050 km the next service reminder will appear at 29,050 km).

Remember to consider additional service requirements based on time and driving conditions. Refer to *Additional service requirements*.

### Service coupons

Service coupons are provided further on in this booklet. When each service is performed, the appropriate coupon is removed. This reveals the next coupon to remind you when the next service is due.

After each service, check the service has been validated by the Service Provider and, where applicable, the Dealer's stamp and signature is on the coupon stub. This is important as it not only assists in the determination of voluntary warranty claims, but enhances the value of the vehicle when selling.

Service coupons are provided for each service up to the 195,000 km / 156 month service. For all subsequent services, refer to the maintenance schedule 'After 195,000 km or 156 months' on page 13. When performing these services, record them on the additional service coupons provided on page 45.

### Additional service requirements

If you are driving your vehicle outside of the normal driving conditions, you may need to conduct additional servicing. Criteria for these additional services can be found in the Maintenance Schedule. Additional service coupons can be found further on in this booklet.

As a guide, if you operate your vehicle continually for a period of one month or 1,000 km under any of the conditions listed, then additional services are recommended. If you consider that further servicing may be required, consult your Holden Dealer.

# SERVICING

## Your Holden Dealer

When it comes to service, remember that your Holden Dealer has the trained personnel and specialised equipment to correctly service your vehicle. Your Dealer invites you to return for all your service needs both during and after the Voluntary Warranty Period.

The safety, economy, emission control, performance and reliability of your vehicle cannot be assured unless regular maintenance is performed, preferably by factory-trained technicians at Holden Dealers.

## Voluntary Warranty and service

Subject to your non-excludable Statutory Rights, all maintenance services listed in this handbook, and replacement of service items, are the responsibility of the owner and as such are NOT considered under the provisions of the New Vehicle Voluntary Warranty to be rectified of defective material and workmanship. Items such as wheel alignment, necessary adjustments to drive belts, transmission, clutch and parking brake or any other items which may require servicing due to fair wear and tear are carried out at the owner's cost.

Damage caused by failure to have proper maintenance services carried out in accordance with Holden's specifications may void your New Vehicle Voluntary Warranty. As a result, it is strongly recommended that such services be carried out by an authorised Holden Dealer or Authorised Service Outlet and that you read the New Vehicle Voluntary Warranty section previously in this booklet, so that you are aware of the voluntary warranty exclusions.
